\* The song "Jet Boy, Jet Girl" by Elton Motello – a song that has cover versions of its own – has the same backing track as "Ca Plane Pour Moi."

\*\* The Dukes of Stratosphere is the psychedelic band alter ego of XTC. The covering of this song by They Might Be Giants is a dream crossover for me, matched only by the They Might Be Giants song "Istanbul (Not Constantinople)" being played in an episode of The Simpsons.

\*\*\* The Terry Jacks version is not exactly the original, since it was based on the song "Le Moribond" (translation: the dying person) by Jacques Brel.
